## What We Will Learn

### Reading

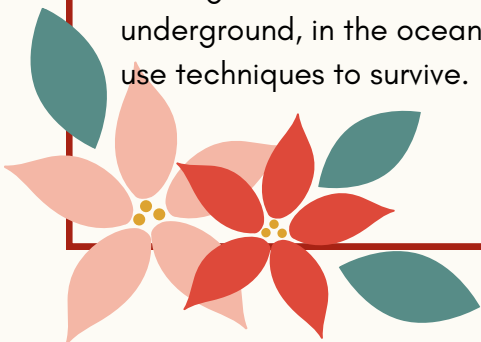

For our first week back, we will be introducing a new author, Kevin Henkes, and working on a study of several of his books. We will use these books to compare and contrast the text and characters in the stories.

### Math Work

It is so important that the students review their multiplication and division facts several times over the break. We will begin learning how to multiply large numbers by single digit numbers the first week back!!

### Science: Environment

Our unit will be an exciting one as we learn about survival skills of organisms in their environment. We will be working to investigate how animals who live underground, in the ocean, and on land use techniques to survive.

### Social Studies

The year will begin with a unit over MO symbols.

### Language Arts

We begin the next literature unit which involves a story about a boy who invents an object for a contest. We will be looking at real life inventors who have made significant advances to our way of life.

Dec. 23-  
Jan. 5

Winter break! Have a wonderful holiday and a happy new year!!

Jan.  
6

Students return to school. Bookmobile at ACES.
