

# March Newsletter

MARCH 10-14, 2025

## NEXT WEEK

**Reading:** Next week, we will begin a new unit focusing on text to text comparisons as we learn about service animals and how they benefit the lives of so many people.

**Math:** Unit 5 starts as we learn about area and perimeter. This is another highly state tested unit, so we will be working diligently on learning how to calculate area and perimeter and use it in common situations.

**Science:** As we learn about the scientific method, we will begin planning designs to create a RoboGrazer using specific criteria and minimal materials.

## NEXT WEEK

**Language Arts:** We will continue to work on our descriptive essays to create and develop sentences in which details create visualization.

**Social Studies:** Next week we will continue working on our states and capitals unit.

## COMING SOON

**Today:** Third quarter ends. Grade cards come home.

**March 9:** Daylight Savings Time begins: set those clocks ahead an hour before you go to bed on Saturday night!

**March 10:** Bookmobile at ACES

**March 14:** Early out at 12:50. If I need to meet with you for a spring parent-teacher conference, I have communicated through School Status Connect.

**UNIT 24 SPELLING WORDS**
