

Mrs. Svendsen's Kindergarten News

Reading –We are moving on from our CVC words to reading words with ‘what’s your name e’ at the end (like, bike, cake, etc.). Since we had a short week, we will continue with our heartwords *this*, *they*, and *that*. They are getting more challenging. Keep on practicing at home! Remember, they should be able to read these words quickly, without sounding them out.

This week we will celebrate Dr. Seuss’ birthday! We will compare different books and review rhyming.

Math –We will continue our unit on numbers 0-100. Your child should be able to continue to 100 easily and also feel more comfortable writing all the way to 100! I can not believe how much they’ve progressed so far!

Writing –We will begin writing informative sentences.

Science – We will finish our unit on states of matter.

Student Treasures Project – This week we will start the process of publishing our own class book. Be on the lookout for more information on how you can purchase your own copy!
